The application for preliminary approval of a major land development shall be submitted in accordance with §22-603 of this Part and shall include the following information:

- A. Twelve (12) copies of the completed application form supplied by the Township.
- B. Application filing fee, as required by §22-1101.A of this Chapter.
- C. Proof of proprietary interest.
- D. Written evidence of compliance with all other Township, County, State, or Federal permits required for the plan, if any.
- E. If the proposed use is a conditional use or use by special exception, an application for approval of the conditional use or use by special exception shall accompany the application for preliminary approval of the major land development. Preliminary approval of the major land development shall not be granted unless the conditional use or use by special exception is approved prior to or concurrent with the preliminary major land development plan.
- F. For all applications which propose 25 or more dwelling units or any nonresidential building or buildings (existing and proposed) that generate 100 or more vehicle trips per day, a traffic report prepared by a qualified traffic engineer shall be submitted detailing the nature and extent of trip generation expected to result from the proposed development based on the ratios and methodology contained in the current edition of the Manuals of the Institute of Transportation Engineers. The report shall include current and projected capacities and levels of service of all streets and intersections within 1,000 feet of the site proposed for development or the next nearest intersection and recommendations for improvements to streets and/or traffic control devices within the site or immediately adjacent to the site. The traffic report shall be signed and sealed by a registered professional traffic engineer.
- G. Wherever any public improvements are proposed and where evidence exists of deep mining, strip mining, landslide prone soils or other geologic hazards on the site, a geologic report by a qualified registered professional engineer acceptable to the Township regarding soil and sub-

surface conditions and the probable measures needed to be considered in the design of the development, the location of structures and the design of foundations, if any.

H. A wetlands determination report for all sites which have hydric soils or soils with hydric inclusions and, if applicable, a wetlands delineation report for all jurisdictional wetlands on the site and the design techniques proposed to accommodate them.

I. Written evidence on the plan or in letter form indicating whether the applicant is proposing to dedicate recreational open space or make payment to the Recreation Fund.

J. Twelve (12) copies of a preliminary plat, accurately drawn to a scale of not less than 1 inch equals 50 feet on a survey prepared and sealed by a Pennsylvania Registered Land Surveyor. The preliminary plat shall include or be accompanied by the following information and shall be prepared and sealed by a registered professional engineer or registered professional land surveyor:

1. *Date of Preparation.* All revisions shall be noted and dated.
2. A location map showing the location of the tract with reference to the surrounding properties, existing streets and streams within 1,000 feet of the land development.
3. Name of the development, including the words "Preliminary Land Development Plan"; North arrow; graphic scale; County Assessment Map and Parcel number; the name and address of the record owner; the name and address of the applicant; the name and address, signature, license number and seal of the Pennsylvania registered land surveyor preparing the survey. If the owner of the premises is a corporation, the name and address of the Chairman and Zoning Officer shall be submitted on the application.
4. All distances shall be in feet and 0.01 of a foot and all bearings shall be given to the nearest 1 second.
5. The Zoning District in which the parcel is located, together with the zoning classification of properties within 200 feet of the boundaries of the property for which the application is made.
6. Property survey showing survey data, including boundaries of the property, building, or setback lines and lines of existing and proposed streets, lots, reservations, easements, and areas dedicated to public use, including grants, restrictions, and rights-of-way, to be prepared by a licensed land surveyor. The name, address, signature, and seal of the surveyor shall be indicated.
7. A copy of any existing or proposed covenants, deed restrictions, which are applicable to the property.
8. A written statement requesting any waivers or modifications to this Chapter in accordance with Part 10, if applicable.
9. A written statement identifying any zoning variances which will be needed or which have been granted to the property by the Zoning Hearing Board.

10. The distance, measured along the right-of-way lines of existing streets abutting the property, to the nearest intersections with other public streets within 200 feet of the site boundaries.
11. The location and dimensions of proposed buildings and structures, all accessory structures and fences, if any, including front, side, and rear yard setbacks, height of buildings, first floor elevations of all structures, and floor plans and elevation plans of each building.
12. If applicable, Flood Hazard Zone boundaries, as identified on the current Official Map for the Township issued by the Federal Insurance Administration.
13. Existing contours shall be shown at not more than 5-foot intervals where the slope is greater than 10 percent and at not more than 2 feet where the slope is less than 10 percent. Contours shall not be plotted from the MPC Quadrangle maps.
14. Written or graphic evidence that all earthmoving activities shall comply with the Township Grading and Excavating Regulations [Chapter 9] of the Code of Ordinances of the Township.
15. Location of existing rock outcrops, high points, watercourses, depressions, ponds, marshes, wooded areas, and other significant existing features, including previous flood elevations of watercourses, ponds, and marsh areas as determined by field survey.
16. A slope map showing the location and the area (in square feet) of land which has a slope of 25 percent or greater.
17. Certification by a registered professional geotechnical engineer regarding the feasibility of any proposed grading on slopes greater than 25 percent, the stability of the finished slopes, measures to mitigate landslides, soil erosion, sedimentation, stormwater runoff, and potential impacts on adjacent properties.
18. A grading plan with proposed contours shown at 2-foot vertical intervals, and written or graphic evidence that all earthmoving activities shall conform to the Township's Grading and Excavating Regulations [Chapter 9].
19. Any and all existing streets related to the proposed development; including the names, cartway widths, approximate gradients, and sidewalk widths.
20. If any new streets are proposed, profiles, indicating grading; cross- sections showing the width and design of roadways and sidewalks.

22. Plans of proposed stormwater systems showing feasible connections to existing or any proposed utility systems. All stormwater facility plans shall be accompanied by a separate sketch showing all existing drainage within 500 feet of any boundary, and all

areas and any other surface area contributing to the calculations, and showing methods to be used in the drainage calculations.

23. Stormwater management plans, as required by §22-908 of this Chapter.

24. The location and size of all existing sanitary sewers and the location and size of all proposed sanitary sewers.

25. The location and size of all existing and proposed waterlines, valves and hydrants.

26. The location, width and purpose of all existing and proposed easements and rights-of-way.

27. The location, type and approximate size of existing utilities to serve the development and written verification from each utility that service will be provided to the development.

28. A soil erosion and sedimentation control plan prepared by a person trained and experienced in control methods and techniques which conforms to the requirements of the Pennsylvania Clean Streams Law, 35 P.S. §691.1 *et seq.*, and Chapter 102 of the Rules and Regulations of the Pennsylvania Department of Environmental Protection governing erosion control, 25 Pa.Code, Chapter 102, and documentation that the County Soil Conservation Service has issued an NPDES permit if required.

29. The number and density of dwelling units (if residential).

30. All means of vehicular access for ingress and egress to and from the site onto public streets, showing the size and location of internal streets or driveways and curb cuts including the organization of traffic channels, acceleration and deceleration lanes, additional width, and any other improvements on the site or along the site's street frontage necessary to prevent a difficult traffic situation. All pedestrian walkways and provisions for handicapped facilities in compliance with the requirements of the Americans with Disabilities Act (ADA) for an accessible site shall also be shown.

31. Computation of the number of parking spaces to be provided, the location and design of off-street parking areas and loading areas showing size and location of bays, aisles and barriers and the proposed direction of movement.

32. Tabulation of site data, indicating zoning requirements applicable to the site and whether the proposed site development features comply.

33. Proposed screening and landscaping, including a preliminary planting plan.

34. The methods, placement and screening of solid waste disposal and storage facilities.

35. If applicable, a detailed proposal, including covenants, agreements, or other specific documents showing the ownership and method of assuring perpetual maintenance to be applied to those areas which are to be used for recreational or other common purposes.

36. Written or graphic evidence that all public and/or private improvements will comply with the design standards of this Chapter and the infrastructure improvement and development specifications.

37. If the plan is to be completed in phases, the proposed sequence of development with projected time schedule for completion of each of the several phases.

38. If applicable, a notation on the plat that access to a State highway shall only be authorized by a highway occupancy permit issued by the Pennsylvania Department of Transportation under §420 of the State Highway Law, P.L. 1242, No. 428 of June 1, 1945, 36 P.S. §670-420, and that the approvals of the Collier Township Planning Commission and Township Board of Commissioners are conditional, subject to action by the Pennsylvania Department of Transportation pursuant to application for a highway occupancy permit.

39. Spaces for the signature of the Chairman and Secretary of the Planning Commission; the Chairman and Secretary of Township Board of Commissioners; and dates of approval.

40. Plan monumentations, as required by §22-801 of this Chapter.
